OTHER

- Git / Axios / Kanban / Agile

PET-PROJECT

About project

- https://movies-pet-project.web.app   (authorization is required)
- https://github.com/Denis200019093/firebase/tree/master

Simple movie website. I used such technologies as React / TypeScript / Firebase / MaterialUI. There you can authorize, save to bookmarks, filter movies, add/remove rating, leave a comment + reply. Also i added ADMIN panel, and there you can create new movie or find any user/movie and update or remove it.

COURSES

- FULL COURSE IN JAVASCRIPT + REACT - Udemy
- PRACTICAL JAVASCRIPT (ADVANCED LEVEL) - Udemy
